Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is US Publication No. 2005/0021467 to Franzdonk.

Franzdonk discloses a digital rights network including a digital rights server to store content consumer rights, defining access right of a content consumer with respect to content, and content owner rights defining access policies to the content as established by a content owner. Franzdonk taken either individual or in combination with other prior art of record fails to teach or suggest providing said plurality of content keys encrypted with said plurality of license keys, used one-at-a-time on a periodically rotating basis for encrypting and decrypting said plurality of content keys, to said license in an Intellectual Property Management and Protection (IPMP) stream provided along with said material as recited in independent claim 1, transmitting said plurality of content keys encrypted with said plurality of license keys, used one-at-a-time on a periodically rotating basis for encrypting and decrypting said plurality of content keys, to said client device in an Intellectual Property Management and Protection (IPMP) stream provided along with said material as recited in independent claim 18, said plurality of content keys encrypted with said plurality of license keys, used one-at-a-time on a periodically rotating basis for encrypting and decrypting said plurality of content keys, to said client device in an Intellectual Property Management and Protection (IPMP) stream provided along with said material as recited in independent claim 31 and receiving said plurality of content keys encrypted with said plurality of license keys, used one-at-a-time on a periodically rotating basis for encrypting and decrypting said plurality of content keys, in an Intellectual Property Management

and Protection (IPMP) stream provided along with said material as recited in independent claim

52. Further, if the features above were found in a reasonable number of references one of ordinary skill in the art would not be motivated to combine these references with Franzdonk because it would destroy the operation of Franzdonk.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
